

Q-COAT TC™

TRANSPARENT COATING

A specially formulated transparent coating used in the manufacture of plastic backlit signage. Specially formulated to provide non mottling, fast hiding, and bright colors.

Q-COAT TC™ Transparent Coating is formulated to assure maximum non mottling spray application and long term product performance. Available in stock colors, pre-mixed program colors or when utilizing a mixing machine, colors can be mixed by using the Q-COLR™ Concentrated Colorants and Q-BASE PB™ Binders.

Our complete system includes Q-MASK™ SM4000™, a water based strippable masking, and a selection of Q-SOLV AR™ Alcohol Reducers. See reverse side for details.

FOR MANY INDUSTRY SUBSTRATES

Polycarbonate	Acrylic
ABS	Styrene
Flexible and Rigid Vinyl	Copolyester
PVC	CAB
Impact Modified Acrylic	

**Always test surface preparation and topcoat compatibility to determine acceptability before any production run.*
